After many hours of deliberation and debate, a team of six prominent numismatists selected the 1968 winners of the internationally-celebrated National Coin Week competition. National Coin Week was observed this year from April 21 through 27 and is sponsored annually by the ANA for the purpose of promoting numismatics. The scrapbook entries included accounts of displays, publicity and contributions made by clubs and collectors centered around this year's theme, "History Under Glass."

This year's chairman, Clark A. Yowell, past president of the Colorado Springs Numismatic Society, gave many hours to promoting National Coin Week, which first was observed in 1924 and has since become an annual event. It now is celebrated by ardent numismatists and coin clubs throughout the world and is one of the outstanding programs of the ANA and its 25,000 members.

The purpose for the special week is to advance the cultural and artistic aspects of coin collecting, to advance the enjoyment of the hobby through proper education and to advance interest in coin collecting as a science rather than a hoarding of coins. Another important purpose is to attract and educate new collectors.
